DAIRY COOPERATIVES, CAMBING INDUSTRY EXCEED FLAN

DATHY COOPERATIVES EXCEED PLAN -- Polska Zbrojna, No 41, 11 Feb 49

The Central Office of Dairy Cooperatives greatly exceeded the production plan.for 1948.

Production of butter was estimated at 15,517 tons whereas actual production reached 17,893 tons as compared with 7,800 tons in 1947.

The estimated production of 4,158 tons of cottage cheese was exceeded by 3,431 tons, while in 1947 total production of all comparative dairies amounted to only 2,705 tons of cottage cheese. Production of cheese made of whole milk was 3,191 tons (planned production, 2,100 tons); cheese made of skinned milk, 3,911 tons.

Production of cream was 3,588,000 kilograms as against 1,075,000 kilograms planned (production in 1947, 765,000 kilograms). Production of milk for private consumers (not including milk used for processing) amounted to 216,514,000 liters as against a planned production of 177,000,000 liters (in 1947, 105,000,000 liters).

Production of casein amounted to 3,500,000 kilograms us against 878,000 kilograms planted.

Production of poultry was 3,240 tons as against 1,460 tons planned.

Production of poultry was 3,240 tons as against 1,460 tons planned. Also, 259,000,600 eggs were purchased, while the planned figure was 350,000,000.

PRODUCTION OF CAMBING IMPUSTRY -- Gazeta Indowa, No 36, 12 Feb 49

The meat branch of the state camming industry completed the last-quarter 1948 production plan, 120 percent. First and vegetable cameries produced more than 4,700 tons of products, complete products. The fish cameries did not complete the plant because of an inadequate fish catch.

LACTIC ACID PRODUCED FOR FIRST TIME -- Zycie Warszawy, No 56, 26 Feb 49

The first lactic-acid-producing factory in Poland has been opened in Wroclaw recently. Machinery and installations were furnished by various demestic industries. Production of lactic acid is in full progress, and the demestic demand will soon be satisfied. The product will be a substitute for lemon juice.
